

ELITE CARE 3 IN 1 PUTTY MIX

Profile

3 in 1 putty mix is a advance technology for high-performance penetrating putty mix used to protect concrete, brick, mortar and masonry surfaces from the damaging effects of water intrusion.

It is a styrene co-polymer and water-based advance technology solution. It is a unique one of its kind self-primed putty which provides a strong foundation for topcoats and enhances the desired performance of finish paints, both in looks and durability.

Recommended Uses:

3 in 1 Putty Mix is to be used only on interior surfaces. The putty can be applied on all concrete and masonry surfaces. No primer needed.

Features and Benefits:

- It is cost-effective and have sealer, putty and damp care properties, no need to apply putty or sealer separately.
- Provides excellent water repellency and keeps water out of your structure.
- Does not change the appearance of the surface.
- Easy to apply.
- Ready to use.
- It provides excellent top coat finish.
- The putty offers superior smoothness.
- Resists mildew and moss formation, rust stains and efflorescence
- Requires no special tools to apply
- Can be used for outdoor or indoor

Technical Information:

PROPERTIES	RESULTS
Appearance	Milky white
Solid Volume	48
Density g/cm ³ (lb. /cu. in.)	1.55
pH	8
VOC	< 20 g/L
PVC type	High
Viscosity	120-140 poise
DFT	100 Micron
Theoretical Coverage	65 sft/ltr

Application:

- Apply as sealer: Mix 30 - 40% water then apply one coat as sealer.
- Apply as putty: Without mixing water apply directly to fill porosity of wall and let it dry for 24 hours, after drying scrap the wall by a series paper(no 120) and make the surface even

ELITE CARE 3 IN 1 PUTTY MIX
